DUE TO THE QUALITY OF THE ORIGINAL

MAJOR EVENTS AT WDI

1949-1953	Various agencies inspected and investigated the site and permits were issued.
1957 ¹⁹⁵³ -1958	Numerous complaints from nearby residents of odor emanating from the sumps and dump area received.
6/17/82	A field check of WDI as an abandoned site was done by DHS.
8/31/84	Dames & Moore prepared Initial Subsurface Investigation.
11/14/84	Hazard Ranking Scoring was done by DHS - score of 140.64.
12/1/84	Preliminary Assessment Summary was prepared by DHS.
12/7/84	Preliminary Site Assessment was prepared by Dame & Moore for the Redevelopment Agency of the City of Santa Fe Springs.
5/ /85	DHS ordered the Bennetts to Post and Fence.
8/2/85	Supplemental Environmental Impact Report (EIR) for the Amended Redevelopment Plan for the Norwalk Redevelopment Project circulated for review. Both DHS & the Water Board concurred with the recommendation to proceed with the Remedial Action Plan.
8/22/86	City of Santa Fe Springs submitted two reports prepared by Dames & Moore to DHS: a. Cone Penetrometer Survey b. Shallow Soil Vapor Survey
1/ /87	WDI listed in Bond Expenditure Plan as a NPL site.
9-12/87	EPA mailed out General Notice Letter/Request for Information to potential PRPs.
1987-1989	Remedial Investigation.
9/1/93	

April 53 Despite fact from Jul 49 forward most frequent and strenuous complaint was night noises original spec. permit gave property owners positive protection against this, not until end of 1953 when we complained we cannot stand night noises were we advised that in April 53 operator secured Variance 911 to operate 24 hours a day; he secured this on basis of one positive lie and one positive and deliberate ambiguous statement; no property owner had fore knowledge or after knowledge this variance requested; we never had opportunity to expose his lie or to present our objections to nite time operation

and of
1953

? diapiric? ylonie
We have five months of bad fish oil smell at dump. Men working at dump vomit from the smell and operator knows of this; So. Whittier School closes doors and windows and some students and teachers become ill. See separate petition signed by over 100 persons; there were several hundred more wanting to sign petition but county officer said 100 signors more than enough. Middle of Dec 1953 we submitted this petition

This petition and another request to have this license revoked was mailed to THIRTY SEVEN persons and/or depts. To date our specific request for license revocation never reached proper person or proper dept....we enlisted aid of all thirty seven to accomplish revocation of license this time.

CV
1953

Sent telegrams to Air Pollution; Regional Planning Commission and Industrial Waste to help us.

12-2-53 Regional Planning replied with 12-2-53 letter signed Milton Breivogel by John Commons; he answered part of our questions about permit requirements

12-22-53 Regional Planning, Milton Breivogel signed by John Commons answered part of our petition and request for permit revocation..investigation they made after we filed permit shows dump operating in accordance with all rules of permit; that between 12.00 noon and 1.00 p.m. on one day, Dec 18, 1953, he detected no odor; he states that on Dec 15, 1953 Indus trial Waste investigator on Dec 15, 1953 could find no odor other than normal oil well waste odor; Industrial Waste issued order dump must comply with Ord 6130 to confine materials dumped to rotary drilling mud and solid fill and have 24 hour caretaker. On 12-22-53 dump was still obeying rules. This letter advised that our petition to revoke license sent to Exceptions and Permits Section for possible revocation,

"However, in conversation with Mr. J. Caneer, it was disclosed that the dump would be abandoned within a few months as the area is being filled rapidly".

Exceptions and Permits Section did not reply to our petition.

On basis of above quoted statement, property Owners abandoned forcing issue at this date

1958 Five years after receiving above quoted statement dump is still in operation and still causing great distress to neighborhood through violations.

Feb 1957 Our first report of garbage-like or cess-pool like odor. Dump Owner cited three times in Feb 1957; court fined him \$100. first time; court fined him \$100. second time but suspended fine; court fined him \$100. third time but suspended fine.

April 1958 Same bad odor as Feb 1957 has never left us entirely...gone some times..back very light sometimes and varying in intensity from that to unbearable in April 1958. Citations issued in April 1958 do not come to a hearing where neighbors could be heard; May 1958 more citations issued. June More citations issued. Advised air pollution citation and fines not enough...we get no relief from smell...we want court hearing where we can be heard

Dear Sir:

Subject: Special Permit Case No. 1216-(1)

This is to inform you that Nollie Hudson, D. L. Carter, F. Caweer,
Marvin Pitts and Waste Disposal, Inc.
whose address is 12731 East Los Nietos Road, Whittier, California

has applied for a special permit to establish, operate and maintain
refuse, garbage disposal and junk yard facilities on a parcel 835 feet
by 860 feet, with a 60-foot access road to Los Nietos Road, located
300 feet northeasterly of Los Nietos Road, and approximately 350 feet
southeasterly of Santa Fe Springs Road, in the M-2 (Heavy Manufacturing)
Zone, in the Los Nietos - Santa Fe Springs Zoned District, Los Angeles
County.

A hearing in this matter is set for Thursday, November 8, 1956 at 11:00 a.m.
and will be held before the Zoning Board in the Regional Planning
Commission hearing room, Room 100, 108 West Second Street, Los Angeles,
California.

This department would appreciate any information from your files or
at your disposal, relative to the development of this property to
the requested use, which may affect the decision to be rendered in
this case.

To be effective this information must be presented on or before the
designated time of hearing.

Very truly yours,

THE REGIONAL PLANNING COMMISSION

Attention: Building and Safety Division

Dear Sir:

Subject: Special Permit Case No. 1032-(1)

This is to inform you that Waste Disposal, Inc.,

whose address is 12731 E. Los Nietos Road,
Whittier, California

has applied for special permit for a disposal operation by utilizing an existing sump for the disposal of solid fill, rotary drilling mud and other non-acid oil well waste on property located on the easterly side of Santa Fe Springs Road, approximately 800' north of Los Nietos Road in the M-2 (Heavy Industrial) Zone, in the Los Nietos-Santa Fe Springs District, Los Angeles County.

A hearing in this matter is set for Thursday, March 3, 1955, at 9:30 A.M., and will be held before the Zoning Board in The Regional Planning Commission hearing room, Room 100, 108 West Second Street, Los Angeles.

This department would appreciate any information from your files, or at your disposal, relative to the development of this property to the requested use, which may affect the decision to be rendered in this case.

To be effective this information must be presented on or before the designated time of hearing.

WASTE DISPOSAL CO.
12731 E. Los Nietos Road
Whittier

I-629-10

I had a telephone call this morning from Mr. Carter, asking permission to keep their dump open around the clock. He stated the reason for the request was based on the fact that increased drilling in the Santa Fe Springs oil field in his mind justified this. He said that the haulers are in many cases forced to take the drilling mud to Orange County disposal, necessitating a drive of about 20 odd miles, instead of what would be 2 miles if they hauled it to his dump. I pointed out to Mr. Carter that it would be impossible for us to grant him that permission insofar as I could judge without reviewing the record. I told him I would do this and leave word for him at the dump.

In our conversation, Mr. Carter stated they had made considerable advance in regard to smoothing off the surface and erecting dykes, etc. With this in mind I talked with Mr. Partin, and we visited the dump today at noon. Informed Mr. Joe Caner that we were in no position to grant him any permission to operate the dump other than the hours stipulated by the Planning Commission, namely, 6 AM to 6 PM. It is our opinion that they will adhere to this. We pointed out that it is a matter of the Planning Commission's requirements, and that before we could change our position it would be necessary to receive a change order from that Commission.

We walked over the ground and noticed that they have constructed a berm, possibly 4 feet high, along the Santa Fe Springs Road side, connecting up to the old original berm, which would impound any water that would be discharged into that new area along with drilling mud. They have also improved the roadway approach halfway around the dam on each side, to provide for better approach thereto. They have smoothed up the easterly side somewhat.

All in all, it looks like the dump has taken on some new life.

Los Angeles 15, California

Attention Mr. G. Glass

Dear Sir:

WASTE DISPOSAL, INC. (I-629-10)

On January 12, 1956, the County Engineer forwarded the certification for the renewal of business license for Waste Disposal, Inc. to the Board of Supervisors, as required by Ordinance No. 5860 (Business License Ordinance). Section 9. of this certification states:

"The applicants have stated that the waste disposal facility will be open to the public from 8:30 a.m. to 5:30 p.m., Monday through Saturday.

On April 3, 1956, a verbal request was made by Mr. Pitts, President of Waste Disposal, Inc. to have the hours as stated in the above-mentioned Section 9. amended to enable them to accept waste materials during night hours.

We have been advised by the Regional Planning Commission that there are no restrictions relative to operating hours in the conditions as imposed by Special Permit Case No. 634, as amended, which established the zoning for this operation.

The County Engineer has no objection to the amendment of the operating hours as stipulated in the above-mentioned business license certification provided:

1. The operator of this facility changes his sign posted at the entrance to reflect the proper operating hours.

Mr. E. L. Ryan
Attention Mr. C. Olsen

April 4, 1956
Page 2

2. The operator strictly adheres to Condition No. 8 of Industrial Waste Permit No. 57, which requires that:

"An attendant shall be on duty at all times when dumping operations are in progress. Gates shall be closed and securely locked at all other times."

It is our understanding that this letter, attached to the original certification for renewal of business license, will be sufficient to amend the business license for this operation.

Yours sincerely,

John A. Lambie

Whittier, California

Attention: Mr. Marvin Pitts, President

Gentlemen:

SUBJECT: Waste Disposal, Inc. (I-629-18)

You are hereby notified that immediately upon receipt of this notification, your Industrial Waste Permit No. 57 is amended to include the additional parcel of land as granted by Special Permit Case No. 1012-11. The attached special conditions and limitations will supersede all former restrictions as imposed by your permit.

This additional parcel of land now increases the total area under Industrial Waste Permit No. 57 to 26.125 acres. Therefore, in accordance with Section 2223 of Ordinance No. 5860, your faithful performance bond will have to be increased from \$24,030 to \$25,000.

**AMENDED SPECIAL CONDITIONS AND LIMITATIONS
FOR INDUSTRIAL WASTE PERMIT NO. 57 ISSUED TO
WASTE DISPOSAL, INC.
12731 EAST LOS NIETOS ROAD, WHITTIER, CALIFORNIA**

1. Waste disposal covered by this permit shall be limited to the operation of a waste disposal facility for rotary drilling mud and solid fill materials located on a parcel of land being the northeast 835 feet of the southwest 1,165 feet of Lot 5 of Re-survey of Gun and Hassards Flat shown on map recorded in Book 34, Page 64, of miscellaneous records of Los Angeles County except therefrom the southeasterly 215 feet of the southwesterly 400 feet thereof and also except the northeasterly 200 feet of the northwesterly 300 feet thereof and also excepting portions thereof within public streets. Distances refer to center line of streets. The subject parcel is shown in detail on plans revised on January 24, 1952, and on additional plans approved by the County Engineer on August 3, 1955. These plans are made a part of this permit.
2. Wastes accepted for disposal in Areas II, III, and IV shall be limited to the following materials:
 - a. Rotary drilling mud
 - b. Clean earth
 - c. Rock, sand, and gravel
 - d. Paving fragments
 - e. Concrete
 - f. Brick
 - g. Plaster
 - h. Steel mill slag
 - i. Dry mud cake from oil field sumps
 - j. Acetylene sludge

Other materials may be accepted if written approval is first obtained from the County Engineer.

3. Wastes accepted for disposal in Area I shall be limited to those as listed under Condition No. 2 with the exception of rotary mud which is not acceptable.
4. Areas in which dumping and/or earth moving operations are in progress shall be continuously wet down to suppress dust.
5. Entrance to the entire disposal facility shall be from Los Nietos Road.
6. Service roads shall be oiled or otherwise surfaced to suppress dust.
7. Fencing shall be maintained in good condition at all times to provide public protection and to prevent unauthorized dumping.

Regional Planning Commission
205 S. Broadway
Los Angeles, California

Gentlemen:

It has been suggested by the Engineering Department of Los Angeles County to address to you our request for a zoning variance on approximately 30 acres of ground lying east of Santa Fe Springs Road, north of Los Nietos Road and west of Greenleaf Avenue in the Santa Fe Springs area. The legal description is as follows:

That portion of Lot 5 of Resurvey of Gunn and Hazzard's Plat of the Cullen Tract, as per map recorded in Book 34 Page 64 of Miscellaneous Records, in the office of the County Recorder of Los Angeles County, described as follows:

Beginning at the Southeast corner of said lot, said corner being a point in the center line of Los Nietos Road, (60 feet wide); thence Northeasterly along the Southeasterly line of said lot, 1165.00 feet; thence Northwesterly parallel with the Southwesterly line of said lot 1268.16 feet; thence Southwesterly parallel with the Southeasterly line of said lot 865.00 feet; thence Southeasterly parallel with the Southwesterly line 668.16 feet; thence Southwesterly parallel with the Southeasterly line 300.00 feet to a point in the Southwesterly line of said lot 600.00 feet Northwesterly of the Southeasterly corner of said lot; thence Southeasterly along said Southwesterly line 600.00 feet to the point of beginning. (Subject to corrections a survey may indicate. Intended to include area contained in existing dikes.)

This property has been used for a number of years past as a disposal area for oil field residue. We are anxious to comply with recently determined policies as to a control of the disposition of industrial waste, and anticipate the filing of an application for such a permit as well as a cut and fill dump. For your guidance we are enclosing herewith a map showing the location of the property in question. We are also enclosing a blue print showing in detail the portion of the area on which the re-zoning is requested together with the approximate dimensions.

We shall appreciate your prompt and favorable consideration.

Very truly yours,

THE DUMPS

COUNTY OF LOS ANGELES

REQUEST FOR HEARING

AS REQUIRED BY CHAPTER SIX OF THE ZONING ORDINANCE

1P (Ordinance No. 1494)

Case No. 911

Name of Applicant D. L. Carter, M. B. Hudson, Marvin Pitts, F. Caner
(Person, Firm or Corporation)

Use Applied for Solid fill dump
Describe in detail the nature of the business, occupation or purpose for which the building,

structure, improvement or premises are to be used and what is to be done on or with the property in the way of
additional improvements.

Legal Description of Property See your file on Industrial Permit #57
(Legal description from deed)

Situated at _____
(Street address or distance from nearest cross street)

between Greenleaf Avenue and Santa Fe Springs Road
(Street) (Street)

in Zone M2, District Santa Fe Springs
(Land use, not postal zone)

A plot plan and pictures of this property are hereto attached and made a part of this request.
(Pictures optional)

See your file on Permit #57

NOTE: Obtain instruction as to the preparation of maps, plans, sketches or other data or information pertinent to this particular request from the office of the Regional Planning Commission before filing.

This property has the following deed restrictions affecting the use thereof: _____

None

(Residential or Commercial only)

Said deed restrictions will expire on None, 19____

The answers to the following must be made complete and full in exception cases. Part I below is not required in other than exceptions.

A hearing is being requested to determine the land use property right of the applicant since:

I. A ~~SUBSTANTIAL~~ PROPERTY RIGHT IS NOT BEING ENJOYED BECAUSE: _____ (State why the

Approximately 80% of the dump volume comes from
property cannot be used for the purpose for which it is zoned)
oil operators in the area such as Union, General Petroleum,
Standard Oil, Rothschild, etc. Their operations are on a 24 hr. basis
and these operators would be greatly inconvenienced
and put to added expense by longer hauls by only daytime
operations.

II. SUCH USE WILL NOT BE MATERIALLY DETRIMENTAL TO THE PUBLIC WELFARE
NOR THE PROPERTY OF OTHER PERSONS LOCATED IN THE VICINITY THEREOF

BECAUSE The only entrance and all mud dumping is completely
(State in detail why the use of property requested will not be detrimental to the surrounding
removed from all view of residential neighbors;
community)
no sound gets to business neighbors.

Gentlemen:

Your request for amendment of Industrial Waste Permit No. 57 to include acetylene sludge in the list of materials accepted for disposal at this location, 12637 Los Nietos Road, Whittier, has been considered by the Industrial Waste Committee.

Effective immediately upon receipt of this notice, Condition No. 2 of Industrial Waste Permit No. 57 is amended to read as follows:

2. Wastes accepted for disposal shall be limited to the following:

- (a) Rotary drilling mud
- (b) Clean earth
- (c) Rock, sand, and gravel
- (d) Paving fragments
- (e) Concrete
- (f) Brick
- (g) Plaster
- (h) Steel mill slag
- (i) Dry mud cake from oil field sumps
- (j) Acetylene sludge

Other materials may be accepted if approval is first obtained from the County Engineer.

Subject: Application for Industrial Waste
Permit - Ordinance No. 6130

Dear Sir:

In accordance with the procedure established for the handling of Industrial Waste Permits between your office and the Industrial Waste Division, we enclose herewith a letter of request submitted by Waste Disposal, Inc., for approval of acceptance of acetylene sludge into their rotary mud sump located at 12637 Los Nietos Road, Whittier.

This company is now operating under the conditions and limitations of Industrial Waste Permit No. 57. At the present time, waste water is discharged after suitable treatment by temporary pipe line into the sanitary sewer.

This application will be discussed at an Industrial Waste Committee meeting in the near future. We request that you contact all state agencies which, in your opinion, will be concerned with the proposed operation and, if possible, secure commitments from them which will enable you to take any action necessary.

Yours very truly,

William J. Fox

Attn: John Parton, Industrial Waste Division

Gentlemen:

We are requested to accept, in our concrete line dumping vat, some acetylene sludge. The Security Engineering people advise that they will have approximately 200 barrels a week and the Chicksan Co. approximately another 20 barrels a week. In our sampling of the material, litmus tests show a slight alkaline tendency which we believe would be beneficial to offset any tendency toward acidity that might develop from some of the rotary mud.

with framing → We are currently running approximately 15,000 barrels of rotary mud per week which, if it averaged 75% water, would give us a delusion (we believe this word to be dilution) of approximately 50 to 1. We ask that you please authorize the acceptance of this material.

Very truly yours

WASTE DISPOSAL, INC.

By F. Caneer, Sec.
